

CIBUK and Facts4EU on GB News – the state of our health service

If the BBC and Sky News won't cover our reports, GB News' Martin Daubney will

Last week Facts4EU.Org published two reports on the state of the NHS. They were widely read and circulated. Readers can view them here :-

A Two-Parter

CIBUK Summary article –
<https://cibuk.org/bloated-bureaucracy-leaves-nhs-unfit-for-purpose>

Facts4EU.Org, Part I – Total numbers of NHS employees declared, excluding GPs and primary care workers

Facts4EU.Org, Part II – Massive growth in number of non patient-facing staff

GB News picked up on these reports and ran with them

Following our affiliate, Facts4EU's two part reports, the GB News presenter Martin Daubney contacted us. The result was a live interview with our Deputy Chairman, who expanded on this research.

Below is the clip from this programme.

Coming up

We have two reports in preparation. One is about defence and the other is on Northern Ireland which Baroness Kate Hoey is assisting us with.

Both of these reports are important so please check back to read them.

Observations

It isn't easy getting coverage in the mainstream media. Behind the scenes we are always active in promoting our affiliate's research but we lack the resources of the over-funded forces of the Rejoiner movement.

It was therefore gratifying to gain a prominent interview live on GB News. For three hours each day Martin Daubney presents a varied line-up, with topical stories and interesting guests. We appreciate his interest in our reports on the NHS and on other topics and hope readers enjoy the interview.
