Guess what happens when you attack democracy

If you are feeling very annoyed about recent antics by the remoaners, you are not alone. Our attention has been drawn to this excellent piece in *Spiked* on line by Brendan O'Neill. Ultimately, as the author points out, these people are being anti-democratic. "We'll stop calling you enemies of the people when you stop behaving like enemies of the people", says the author.

The remoaners can talk all they like about democracy, but "the greatest threat to democracy and liberty today comes from those who would overturn the largest democratic vote in British history."

Precisely.
