**Peer shocked to see Labour Party joining PM's "disgraceful conspiracy of the elite against working people"**

The independent Labour Peer, Lord Stoddart of Swindon has strongly attacked the Labour Party over its support for the Remain campaign in the debate over Britain's future in the EU.

Lord Stoddart said: "As a life-long Labour man, I find it shocking to see the Labour Party ganging up with Cameron and Osborne to talk Britain down in favour of shackling our country to the EU, an organisation which is hell-bent on destroying nation states in favour of a bureaucratic, centralised corporate state, in a country called 'Europe'.

"How can Corbyn and co expect to be treated seriously in their attacks on the Government whilst it is joining them in a disgraceful conspiracy of the élite against working people, engineered by David Cameron? Labour has become wedded to what

can only be described as a one party state and has betrayed the very people that they claim to represent.

“Labour supporters should vote Brexit on 23rd June, to save their country, their jobs and their livelihoods because their Party isn’t going to be able do it for them, if we stay in the EU.”
