

Please sign this petition on defence

Ensure the UK leaves all EU defence rules, policies and structures on 29/03/19.

Please sign this petition and pass on to all your friends.

10,000 signatures are needed to force the government to reply.

Since November 2016, the UK has joined all parts of the EU's "defence union" except one, without any vote by MPs. These include finance, command centre and a central budget. If the UK stays in them or if any of them go into an exit agreement, as the Government has proposed, the UK will not have left the EU.
