

## CIBUK - PRESS RELEASE

**EMBARGO: Immediate release**

Wednesday, 12 October 2022

**NEW: “Brexit Britain  
fastest-growing economy  
in G7... AGAIN,”**

admits IMF

**Anti-British, anti-Brexit IMF forced to admit UK will grow fastest for second year running**

**CIBUK.Org summarises the latest bi-annual ‘IMF World Economic Outlook’**

**CIBUK** (<https://cibuk.org/>) – the longest-established organisation for independence, freedom and democracy in the UK – with its affiliate **Facts4EU** – is proud to present a summary of the official facts.

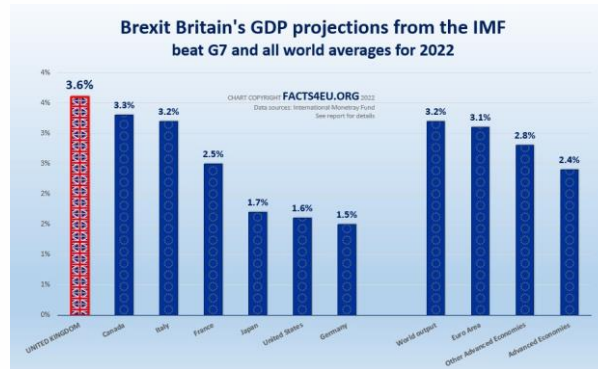

The summary is below and the [full report is now available here](#).

**Yesterday’s release from the International Monetary Fund clearly shows Brexit Britain as the fastest-growing economy in the G7 in 2022.**

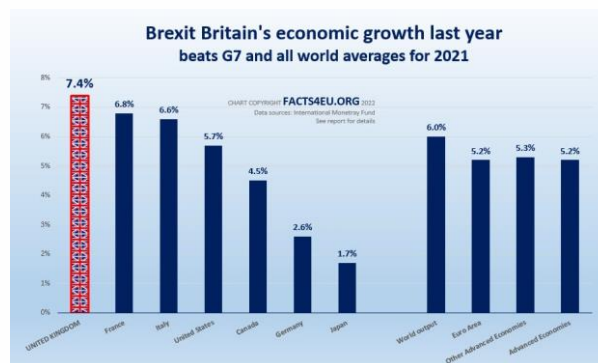

The UK will also grow faster than the “World average”, as well as growing faster than the average of the group of “Advanced Economies” and the group of “Other Advanced Economies”. These are the findings from CIBUK.Org and their affiliated think tank Facts4EU.Org in a study published today.

**The Rt Hon Sir John Redwood MP commented exclusively on our report, saying:**

*“Good news that the IMF thinks the UK is the fastest growing major economy this year. Also good news the IMF rightly thinks inflation will tumble next year. The challenge for the government is to avoid the recessions the IMF thinks will hit some advanced countries next year.”*

This comes on the back of the results for last year, 2021, when Brexit Britain was **the fastest growing economy in the G7**. And all of this official data comes from the (Paris-based) organisation that has **“a mandate to oversee the international monetary and financial system”** and which predicted **economic Armageddon** if the British people voted for Brexit.

## ***Key Data: German Economy 2021-22***

- Production in August 2022: -0.8% on the previous month
  - Import prices in August 2022: +32.7% on August 2021
  - Retail turnover in August 2022 down 1.3% on the previous month
  - Manufacturing in August 2022: new orders down 2.4% on the previous month
  - Coach industry 2020 and 2021: number of passengers down 77% from before the pandemic
  - Construction prices of residential buildings, August 2022: +16.5% on August 2021
  - One fifth of the population in Germany had an annual net income of less than €16,300 [c. £14,500 GBP] in 2021
-

## Commenting, CIBUK's Communications Director Ben Philips said :

*"The British people can easily be forgiven for thinking that all economic news is bad. This is what they are fed, relentlessly, day in and day out, by the broadcast media. In this report we have presented the official headline facts from the IMF's latest World Economic Outlook.*

*"The simple fact is that **Brexit Britain has once again topped the IMF's tables** – and we think the public should know."*

### For editors and journalists

**About CIBUK:** The Campaign for an Independent Britain ([CIBUK](#)) is a non-party political campaigning organisation of people from all walks of life. It is the UK's longest-running membership organisation for freedom, democracy and independence.

Founded in 1969, for over 50 years the CIBUK has made a significant contribution in campaigning on issues important to the majority of our population and in securing our exit from the European Union. Now it's time for the next chapter.
