

EXCLUSIVE : EU has been funding UNHCR illegal migrant flights to Rwanda for 4 years

How can any human rights lawyers argue the UK shouldn't do the same?

An explosive report by the Brexit [Facts4EU.Org](https://facts4eu.org) think-tank for [CIBUK](https://cibuk.org) and the media.

We have all the official facts and figures on this. If it's of interest please let us know. This report is in two parts.

Part I : https://facts4eu.org/news/2023_oct_eu_un_rwanda_1

Part II : How Rwanda is a "safe country" in the words of the EU, the UNHCR, and the African Union. (Coming tomorrow but we can give you a copy now.)

The UNHCR has been "advising" the UK Supreme Court, saying it "*considers that the UK-Rwanda arrangement contravenes the UK's international obligations.*" Yet the EU's own Ambassador to Rwanda describes migrants going "*to safety in Rwanda*", on UNHCR flights paid for by the EU.

In this explosive two-part report we ask : "*Is there no end to the hypocrisy and duplicity of the EU and the UN?*"
